## **Wireless Diode**

£49.98

For your smallest wireless or Bluetooth headset We have added to our new line of products. The Wireless Diode is a super concentrated 1/4" adhesive circle of our most powerful Super Digital Diode Formula and can be attached to even the smallest Bluetooth or wireless headset.

Â The wireless headsets magnifies and directs their EMF radiation, so we have magnified our Formula to neutralize these harmful EMFs.

This tiny, yet powerful, Diode makes it convenient to use the newest technology and stay protected.

Other uses for the Wireless Diode? Hearing Aid? Ipod? Wireless headphones? Wireless gaming remotes?

Wii controls

NOTE: HEADSET NOT INCLUDED!
